PROFESSIONAL SUMMARY

Business development professional transitioning into mobile application development, with hands-on experience building Flutter applications and managing the complete Android publishing lifecycle. Built multiple mobile projects, including a production app published on Google Play. Hands-on exposure to Riverpod, Hive, SQLite, local notifications, home-screen widgets, camera integration, Google ML Kit OCR, Google Mobile Ads, Git, GitHub, and Google Play Console. Brings strong client communication, requirement gathering, coordination, and leadership experience from a software agency environment.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart

State Management & Storage: Riverpod, Hive, SQLite

Mobile Integrations: Google ML Kit OCR, Camera, Local Notifications, Home Screen Widgets, Google Mobile Ads, In-App Purchases

Development Tools: Git, GitHub, VS Code, Android Studio, Figma

Deployment: Google Play Console, Android App Bundles, Closed Testing, Production Releases, Target SDK Configuration

Web & Product: WordPress, HTML, CSS, SEO, UI/UX Prototyping

MOBILE APPLICATION PROJECTS

Shukr Reminder | *Flutter, Dart, Riverpod, Hive, Local Notifications, Home Widget*

- Built and published an Islamic gratitude and dhikr application on Google Play with dhikr counting, gratitude journaling, sadaqah tracking, reminders, and offline data persistence.
- Implemented Riverpod for state management, Hive for local storage, scheduled notifications for reminders, and a home-screen widget for quick access.
- Managed the complete Google Play release lifecycle independently, including AAB generation, testing tracks, store listing, screenshots, release notes, target SDK updates, and production deployment.

Skincare Scanner: Lumina | *Flutter, Google ML Kit OCR, Camera, SQLite, Google Mobile Ads*

- Built an OCR-based skincare ingredient scanning workflow using camera capture and Google ML Kit Text Recognition.
- Loaded and matched scanned ingredient text against a local SQLite database containing 40,000 ingredient records.
- Integrated banner and interstitial ads and independently handled Play Console setup, AAB preparation, store listing assets, and closed testing.

PackSavvy: A Simple Packing List | *Flutter, Dart*

- Built a mobile packing-list application for trip and item organization and prepared the project for a future Google Play production release.

Fasting Tracker | *Flutter, Dart*

- Developed a fasting tracking application focused on daily progress management and mobile UI workflows.

Task Management App | *Flutter, Dart*

- Built a task management application for creating and organizing daily tasks while strengthening Flutter fundamentals, app structure, and debugging workflows.

PROFESSIONAL EXPERIENCE

Business Development Executive | **GetWebix** | **Faisalabad, Pakistan** | **February 2026 - Present**

- Conduct client discovery meetings to understand business requirements, project goals, and website needs.
- Manage recurring client communication and coordinate requirements, feedback, and revisions with WordPress development teams.
- Support lead qualification, proposal discussions, client acquisition, and deal closing.
- Translate client requirements into clear instructions for development teams and maintain professional client relationships.

EDUCATION

Bachelor of Commerce (B.Com) | **University of the Punjab** | **2018 - 2020**

Strengths: Client Communication, Team Collaboration, Leadership, Requirement Gathering, Problem Solving
